

NOTICE

Ashburton Namibia herewith informs the public and its investors that the Namfisa notice in the newspapers of 18 June 2020 regarding the withdrawal of the investment management license of Ashburton Fund Managers Namibia relates ONLY to a separate dormant entity within the FirstRand Namibia group of companies, which is in the process of de-registering, and not to Ashburton Investments or Pointbreak which continues to operate successfully as usual.

Pointbreak Equity, trading as Ashburton Investments and which is in the process of changing its name to Ashburton Investment Managers Namibia, remains appropriately registered as an investment manager, is fully licenced and is the entity through which Ashburton Namibia currently successfully conducts its investment management activities. The company continues to transact on a business as usual basis.

All queries related to the regrettable confusion caused by this standard issuance on deregistering a dormant company with Namfisa, can be directed to: Private Bankers, Relationship Managers and their line managers within Ashburton, PointBreak or FNB for appropriate assurance that the entity within which they are invested, is indeed fully licenced and operating as usual, and all investments remain secure and managed at the level they have come to trust for Ashburton and Pointbreak's performance and stability over the past many years in Namibia.

Issued by Ashburton Investments: 18 JUNE 2020
