

Katuka Mentorship Programme

Transfer of Skills for Greater Success WON'T YOU JOIN US?

Introduction

The mentorship programme is intended to give women who have just started in new careers, or who have been promoted to a more senior position or who have taken the plunge to become an entrepreneur, the support they need to handle their situation with confidence.

By bringing the experience of those who have successfully gone through this process to those who have just started their journey, the chances for success are improved exponentially.

Aim

This programme aims to empower entrepreneurs and other professional women to achieve success in their careers through mentorship by peers or other more experienced business and professional women.

WON'T YOU JOIN US?

The Economist Businesswomen Club is looking for Mentors and Mentees to participate in the one-year programme starting January 2022.

Closing date for applications is 09 November 2021.
