REQUEST FOR PROPOSALS

DBMNE0477 - WASTE ASSESSMENT AND OPPORTUNITY ANALYSIS

DESCRIPTION:

In an effort to continue reviewing and improving our waste management, Debmarine Namibia seeks the services of a consultancy with relevant expertise and experience to undertake a current state and opportunity waste assessment analysis, reviewed against legal requirements, Group standards and international best practice.

SCOPE :

The proposed scope for the waste assessment and opportunity analysis should cover the following aspects:

1. Review the conformity of our current waste management practices against legal requirements, Group standards and international best practice.
2. Conduct an audit of Debmarine Namibia sites (site visits required), waste service providers and contractors associated with Debmarine Namibia's waste management practices.
3. Conduct a baseline assessment of the current quantities and types of waste generated within the business at each operating site including the fleet.
4. Evaluate the current waste streams.
5. Review current waste measurement, data gathering, and reporting systems.
6. Assess the effectiveness of current waste management protocols and processes including contractor compliance.
7. Identify waste reduction opportunities and provide detailed methodologies on waste minimisation techniques to reduce risks and cost.
8. Benchmark waste management against leading best practices and improvement opportunities.
9. Identify opportunities for the adoption of the circular economy in waste management.
10. Conduct mapping exercise of the current waste management lifecycle in terms of the 'cradle-to-grave' process.
11. Calculation of current diversion rates.
12. Conduct a desktop review of priority material streams contributing to current waste streams.
13. Identify opportunities and propose alternative means of addressing potentially challenging waste types.
14. Develop activations and campaign materials to raise awareness of good waste management practices for all stakeholders.
15. Develop a comprehensive waste management dashboard.

DOCUMENTS TO SUBMIT:

1. Company profile.
2. Years of experience in waste assessment and opportunity analysis.
3. Five (5) projects where similar solutions have been developed and applied.
4. Detailed outline of proposed innovation approach, methodology, potential solution development and likely timelines.
5. Overview of the proposed team available to support the work with the highlight of background, expertise, and experience.
6. Proposed estimate cost.

CLOSING DATE: 2 June 2023
